Ref: 1804_5977 **Date:** 17 – 21 May 2027 **Location:** Vienna **Fees:** 5500 GBP

Compliance and Anti-Money Laundering AML is a five-day senior compliance course delivered by Mars Training Centre in the world's financial-crime supervision centres — London, Geneva, Dubai, New York and Manama — designed for compliance officers, money laundering reporting officers MLROs and senior executives responsible for protecting their organisations from financial crime.

Financial crime risk has intensified. Sanctions regimes have expanded, beneficial-ownership rules have tightened, and the Financial Action Task Force FATF standards now anchor an interconnected global compliance environment that touches almost every cross-border transaction. The cost of getting compliance wrong — in monetary fines, regulatory restriction and reputational damage — has rarely been higher. Boards now expect their compliance leaders to do more than administer rules: they expect them to lead.

This programme equips senior compliance and AML practitioners with a working command of the international principles that govern anti-money laundering, sanctions, counter-terrorist financing and broader regulatory compliance. It is delivered in the world's financial-crime supervision centres — London, Geneva, Dubai, New York and Manama — by senior British practitioners drawn from the Mars panel.

What You Will Learn

By the end of this programme, you will be able to:

- Apply the FATF Recommendations and risk-based approach to your compliance programme.
- Design and lead a customer due diligence and enhanced due diligence framework.
